DESCRIPTION	<p>A revolutionary moisturizer that rejuvenates your skin at an optimum level tailored to your specific needs. Harnessing biomimetic technology, this innovative product mimics the composition of your skin to restore its inherent healing capabilities. Rather than disrupting pH levels, our product uses a nutrient-rich 3D biomimetic suspension pioneered by NASA experts in zero-gravity environments for enhanced cell growth. By duplicating the potent regenerative traits of stem cells that exist naturally inside all individuals, you can be assured that your skin will undergo rejuvenation like never before.</p>
